REPUBLIC OF KENYA

COUNTY GOVERNMENT OF KERICHO

ANNUAL DEVELOPMENT PLAN FOR FINANCIAL YEAR 2020/2021

AUGUST, 2019

FOREWORD

The annual development plan outlines policies, projects and programmes that will be implemented in the financial year 2020/2021 in order to contribute towards Kericho County vision of providing high quality life for residents. The annual development plan is prepared annually to guide departments, non- governmental organizations, civil society organizations, private sectors and development partners on what the county government intends to do in each financial year. The plan forms the basis of preparing the budget for the same financial year. In addition, the plan is useful in tracking the achievements at the end of the financial year.

The plan is divided into four chapters: chapter one has a brief introduction of the county in terms of Location, Size, Physiographic and Natural Conditions, Administrative and Political units and Demographic Features; The county covers a total area of 2,479 sq. km with a population of 758,339 as per 2009 National Population and Housing Census and is projected to be 926,237 by the end of plan period taking into consideration of a population growth rate of 2.5% per annum. Chapter two provides the County development analysis. The plan reviews the previous year's performance, the major development challenges and cross-cutting issues that affect the development of the county. Chapter three presents details of projects and programmes derived from Kericho County Integrated Development Plan (2018-2022) that will be implemented in the financial period 2020/2021. It also gives the name of the project, objectives, targets and description of activities for each department. Chapter four presents the monitoring and evaluation framework that will be used at the county level to track progress on implementation of projects and programmes. An indicative matrix detailing projects and programmes, costing, implementing agencies as well as monitoring tools and indicators based on projects and programmes identified in chapter three.

The implementation of this document depends entirely on the cooperation and commitment of all the stakeholders in the county. This document will be disseminated widely and be used as a reference point in allocation and identification of projects to be implemented in the financial year 2020/2021 in order for the county to achieve its goal.

Hon. Charles Birech
County Executive Committee Member,
Finance and Economic Planning and Head of Treasury

ACKNOWLEDGEMENTS

The preparation of the annual development plan 2020/2021 was through collaboration of many stakeholders in the county. I wish to acknowledge the following for making the development of this plan a success: -

H. E The Governor

H.E The Deputy Governor

Members of the County Executive Committee

Budget and Economic Forum and other Stakeholders including the

County Assembly Members

County Public Service Board

Chief Officers

Technical and other staff members from all departments.

Your contributions provided valuable information and we highly appreciate your tireless efforts toward the development of this document are clear demonstration of our collective unwavering effort to achieving our development goals. The department would like to assure all that the necessary mechanisms will be put in place to ensure that the plan is fully implemented as well as ensure we are accountable for all the results thereafter. I wish to thank you again. God Bless Kericho County, God Bless Kenya.

CPA George Kirer

Chief Officer, Finance and Ag. Chief Officer, Economic Planning

COUNTY VISION AND MISSION

Vision

"A prosperous county where residents enjoy a high quality of life in a sustainable environment"

Mission

"To foster equitable and sustained socio-economic development through effective and efficient mobilization and utilization of available resources.

CORE VALUES

Accountability and Professionalism

Accountability to its citizens by paying attention to details and running the affairs of the county in a fair manner.

Yield and Sustainability

Yielding lasting fruits to be enjoyed by the citizens, putting in place measures to ensure sustainability of programs and services rendered.

Commitment and Hard work

Commitment to work by ensuring that there is always competitive and efficient service delivery, responsive to the needs of the people.

Innovation and Creativity

Innovation services driven by creative strategies.

CHAPTER ONE

(General Information County Profile)

CHAPTER ONE

GENERAL INFORMATION COUNTY PROFILE

1.0 INTRODUCTION

1.1 Location and Size

Kericho County is one of the 47 counties in the Republic of Kenya. It is located in the South Rift of the Great Rift Valley, about 256kilometers from Nairobi, the capital city of Kenya. The County lies between longitude 35° 02' and 35° 40' East and between the equator and latitude 0 23' South with an altitude of about 2002 meters above the sea level. The county is bordered by the Uasin Gishu County to the North West, Baringo County to the North, Nandi County to the North-West, Nakuru County to the East and Bomet County to the South. It is bordered to the South West by Nyamira County and to the West by Kisumu County. The county occupies a total area of 2,479 square kilometers and is divided into 6 sub-counties, 30 wards, 88 locations and 211 sub locations.

Map 1: Location of the Kericho County in Kenya

1.2.0 Physiographic and Natural Conditions

1.2.1 Physical and Topographic Features

The county is characterized by undulating topography. The overall slope of the land is towards the West, consequently drainage is in that direction. The county forms a hilly shelf between the Mau Escarpment and the lowlands of Kisumu County. To the North West are the hilly areas of Kipkelion rolling towards Koru. The Kericho plateau forms the central part of the county sloping gently from 2,500m to about 1,800m above the sea level.

The county is surrounded by Tinderet Hills to the North and to the North-East is the Mau Escarpment and between them is the gently rolling land which forms Londiani hills (Tuluap-sigis). The central part of the county rises eastward towards 3,000m above sea level. The county is well drained with a good number of rivers that include Chemosit, Kiptaret, Kipsonoi, Timbilil, Maramara, Itare, Nyando, Kipchorian and Malaget. Some of these rivers are characterized by rapids and falls which could be harnessed for hydro-electric power generation. Some of the rivers with the waterfalls include Maramara, Itare and Kiptaret.

1.2.2 Ecological Conditions

Kericho County lies in the Lake Victoria Basin. Its geology is characterized by volcanic as well as igneous and metamorphic complexes. The county is predominantly underlain by tertiary lavas (phonlites) and intermediate igneous rocks. A small part of the county is dominated by undifferentiated basement system rock (granites), volcanic ash admixture and other prolific rocks.

The hilly nature in some parts of the county encourages soil erosion. This problem is however minimized by the presence of a dense vegetation cover, except in a few areas like Sigowet in Belgut, Chilchila in Kipkelion and partly the lower zones of Ainamoi Division covering Koitaburot in Ainamoi Constituency.

1.2.3 Climatic Conditions

The county receives relief rainfall, with moderate temperatures of 170C and low evaporation rates. The temperature ranges between 290C and 100C. The rainfall pattern is such that the central part of the county, where tea is grown, receives the highest rainfall of about 2,125mm while the lower parts of Soin and parts of Kipkelion receive the least amount of rainfall of 1,400 mm.

The county experiences two rainy seasons: the long rainy season occurs between April and June whereas the short rainy season occurs between October and December every year. The driest season is mostly from January to February. The variations in the temperatures and rainfall are mainly determined by the altitude of the place.

1.3 Administrative and Political

The County covers a total area of 2,479 sq. km and is divided into 6 sub-counties, which are further sub-divided into 85 locations and 209 sub-locations. The tables below presents this area distribution per various administrative units. There are also a total of 333 villages.

Table 1: Political units, Administrative units and Area

| Constituency | Sub- Counties | Divisions | Area (Sq.km) | No of Locations | No of Sub- locations |
|----------------|-------------------|--|-----------------|--------------------|-------------------------|
| Ainamoi | Kericho East | Ainamoi | 239.9 | 11 | 24 |

1.4 Demographic Features

This section presents the county's demographic profile in terms of distribution by age, gender, settlement and projection up to the year 2022. The 2009 Kenya Population and Housing Census statistics forms the basis for the population projections. The county's annual population growth rate is 2.5 per cent.

1.4.1 Population Size and Composition

The county's population was 758,339 in 2009 as per the 2009 National Population and Housing Census. This comprised of 381,980 males and 376,359 females translating to male to female ratio of 1.01:1 meaning that there were more males than females (i.e. 1.01 males for every 1 female). Population was projected at 995,566 in 2018, males being 514,069 and 481,879 are females. A further projection puts the county's population at 1,046,216 by 2020 with male population being 547,136 while females will be 499,080. This is further projected to increase to 1,137,716 by 2022 and it will consist of 583,924 males and 553,894 females.

Table 3: Population Growth Projection by Gender and Age Cohort

| Age Cohort | 2009 | (Censu | ıs) | Estim | ates (2 | 2018) | Mid-7 Proje | Γerm ction 2 | 2020 | | Term ection | 2022 |

| CHAPTER TWO |
|--|
| (County Socio-economic Development, Challenges and Strategies) |
| |

2.0 Introduction

This chapter provides the County development analysis. It also analyzes the major development challenges, cross-cutting issues that affect the development of the county and how the county respond to Sustainable Development Goals (SDGs)

2.1 Situational analysis

2.1.0 Major Development Challenges

Despite several initiatives undertaken to address the challenges hindering the county from achieving its development agenda, there are still several key challenges as outlined below;

2.1.1 Infrastructure

Although great strides have been realized in the improvement of the physical infrastructure (roads) in the county, some parts i.e about a third of the road networks are yet to be opened and more maintenance requirements. This therefore continues to be a major impediment to trade, investment and mobility by farm produce to markets. Key challenges being experienced are: -

- i) Encroachment to road reserves by land owners leading to several court cases resulting in delays in road construction
- ii) Inadequate supervision tools
- iii) Late release of development funds
- iv) Unpredictable weather conditions which renders construction seasonal and delays in implemntation of procurement plan
- v) Competing interest by various stakeholders which often leads to reorganisation of projects priorities.

2.1.2 Poverty

Attempts have been made by the County Government and other development partners to address this problem but despite this effort, poverty is still a challenge in hindering the county from achieving its development objectives.

2.1.3 Unemployment

The county's unemployment rate stood at 47% in the year 2009. The population employed at that period had the rural populace contributing a larger share of the employment. In the county, 53.4 percent of the population is economically inactive in which the rural settlement contributes a larger percentage. This creates a dependency challenge for the working and active population. The major source of income for the people of Kericho County comprises of proceeds from farm produce such

as tea, pineapples, coffee, sugarcane, potatoes, maize and horticultural crops. Employment by 33 multinational companies such as tea farms and factories is another major source of income. The informal sector and more specifically the Jua Kali offers another form of employment. With the devolved government brought about by the Kenyan Constitution 2010, job opportunities are expected to be created both in the formal and informal sector.

2.1.4 Inadequate Clean Water for Domestic Use

Despite the county receiving reliable rainfall, there are certain areas which experience water shortages especially during dry seasons. These areas are in the lower zones of the county covering part of Soin Division in Ainamoi Constituency, Sigowet in Belgut Constituency and Chilchila in Kipkelion Constituency. Sanitation is also a challenge due to poor waste management.

2.1.5 Poor Marketing Systems

Market outlets for agricultural produce which includes crops, livestock and livestock products in the county are not well established. For cash crops especially horticultural produce, poor marketing is occasioned by weak cooperative societies in the county. Lack of market and market information, inadequate storage facilities and transportation problems all work against the development of agricultural, livestock and industrial sectors.

2.2 Low Own Source Revenue Collection

Revenue from local sources constitutes a very small proportion of the annual total revenue estimates. To demonstrate this scenario, out of the total revenue sources of Kshs **8,417,967,273** for the fiscal year 2018/2019, only Kshs. 356,294,000 representing 4.23% of total revenue came from local sources while substantial proportion of Kshs 5,714,800,000 (i.e. 67.89%) came from CRA Equitable share. Below, is a tabulation of the various sources of revenue as per revised projected revenue under supplimetary 2 for financial year 2018/2019.

| | | 2018/2019 REVISED PROJECTED REVENUE (SUPP2) | 2019/2020 FY |
|---|--|--|--------------|
| | Sources of Revenue | Kshs | Kshs |
| 1 | CRA Equitable share | 5,714,800,000 | 67.89% |
| 2 | Local Collections | 356,294,000 | 4.23% |
| 3 | Facility Improvement Fund/NHIF Rebates | 338,525,121 | 4.02% |
| 4 | Conditional Grants | | |

| | Total | 8,417,967,273 | 100.00% |
|-----|---|---------------|---------|
| 5.8 | Other Donor Funds | | |
| | Unspent Fund | 1,236,591,031 | 14.69% |
| 5.7 | Kenya Urban Support Program (World Bank) – UIG | 41,200,000 | 0.49% |
| 5.6 | Kenya Urban Support Program (World Bank) – UDG | 256,299,000 | 3.04% |
| 5.5 | Climate Smart Agriculture Project (World Bank) | 116,443,510 | 1.38% |
| 5.4 | Kenya Devolution Support Program (World Bank) | 44,538,343 | 0.53% |
| 5.3 | Transformative Health System (World Bank) | 61,507,974 | 0.73% |
| 5.2 | Agricultural Sector Development Support Fund (ASDSP) | 24,732,548 | 0.29% |
| 5.1 | DANIDA FUND | 17,516,250 | 0.21% |
| 5.0 | Donor Funds | | |
| 4.4 | Agricultural Support Fund (AFA) | | |
| 4.3 | Development of Youth Polytechnic Fund | 41,005,000 | 0.49% |
| 4.2 | Routine Maintenance Levy | 150,465,707 | 1.79% |
| 4.1 | User Fee Reimbursement | 18,048,789 | 0.21% |

2.3 Cross Cutting Issues

The following are cross cutting issues that continues hinder the county from realizing its full socio-economic development potential.

2.3.1 Gender Inequality

Sustainable development should recognize the key role of women in development processes. It has been observed that women perform over 70 percent of development activities. Despite this crucial role, the concept of gender equity has not been fully understood resulting into misunderstanding between men and women. Equality has been viewed to mean sharing of some domestic chores between a husband and wife. In the context of national development, equity functionally refers to

In the context of national development, equity functionally refers to equality of rights, responsibilities and opportunities for participation of men and women. Attainment of such equality thus implies equality of access to resources and informed participation in decision-making at all levels. The county will promote gender participation in the development processes at all levels as well as encourage gender sensitive practices and culture within the wider county stakeholders. Additionally, efforts will be made to bring together county development partners to improve the status of women and support their role in development so as to achieve gender equity. Women participation and decision making in development

can be witnessed by co-opting women representative in the various development committees.

2.3.2 Environmental Degradation

The county has several degraded hilltops especially in the lower altitude areas and efforts are being made to re-afforestate them. The wetlands available in the county have similar problems of ownership and uncertainty thus causing encroachment and sub-segment destruction. Riverbanks often than not are encroached by individual farmers to an extent of collapsing the banks. Efforts are being made to enforce EMCA (1999), Water Act 2002 among other Acts requirement on river line protection through participatory approach.

2.3.3 Climate Change

The impacts of climate change are clearly manifest in the county. The main climate events are associated with rising temperatures and increased precipitation. These have particularly become frequent and more severe in the past two decades presenting huge additional burden towards sustainable development of the county. Rising average temperatures have made the county a favourable habitat for anopheles mosquito. This explains the increasing cases of malaria in areas hitherto unknown for the disease.

2.3.4 Disasters

Fires: Fabrication of water tank for the fire engine purchased during the financial year 2015/2016 has been completed and is yet to be inspected the and payment made before it is released for commissioning. Once it is commissioned, the county capacity to response to fire disasters will be considerably enhanced.

Landslide: This mostly happens within Chilchila area of Kipkelion West Sub County during heavy rains. During the Financial Year 2015/2016, major landslide occurred at Muhoroni which cut off the Londiani-Fortenan-Kisumu Road near Muhoroni market. Although no lives were lost out of the incident, it confirms that Landslide disaster in the region continues to pose real threat hence the need for the conunty to be better prepared to respond accordingly. It is however worth noting that no landslides were experienced during theed FYs 2017/2018 and 2018/2019 except isolated sinking of toilets and roof damage by wind. In Sigowet, massive soil erosion occurs which has led todevelopment of deep and dangerous gullies which require rehabilitation among other activities. Lightning: The areas prone to lightning include Sigowet area in Soin/Sigowet Sub-county and some areas in Kipkelion.

De-forestation: This happens in the Mau complex where people cut down three for fuel and settlement. This has greatly affected the local climate of the county. The ecosystem has also been greatly affected by the destruction of the forest cover.

Mining/ quarrying: Open quarry sites left after quarrying mostly in Kedowa and other parts of the county has caused serious loss and destruction of the environment. Farm land has also been lost due to the activity.

2.4 Integration of the Sustainable Development Goals (SDGs) into County Plans

On 25 September 2015, the Member States of the United Nations agreed on the 17 Sustainable Development Goals (SDGs) of the Post-2015 Development Agenda. The SDGs build on the Millennium Development Goals, the global agenda that was pursued from 2000 to 2015, and will guide global action on sustainable development until 2030. All of the SDGs have targets that are directly or indirectly related to the daily work of County Governments. County Governments are catalysts of change and are best-placed to link the global goals with local communities. Further, the County governments are the basic local governance units that can support localization, mainstreaming and implementation of Sustainable Development Goals.

The sustainable development goals agenda is a plan of action for people, planet, peace, prosperity and partnership. The 17 sustainable development goals and 169 targets seek to build on the millennium development goals, and complete what these did not achieve. They are integrated in the three dimensions of sustainable development: the economic, social and environmental. The goals and targets will stimulate action over the next fifteen years (up to 2030) in areas of critical importance for humanity and the planet. **(Ps)**

- **People**: Ending poverty and hunger, in all their forms and dimensions;
- **Planet**: protecting the planet from degradation, including through sustainable consumption and production;
- **Prosperit**y: ensuring that all human beings can enjoy prosperous and fulfilling lives;
- **Peace**: fostering peaceful, just and inclusive societies which are free from fear and violence;
- **Partnership**: mobilizing the means required to implement this agenda through a revitalized global partnership for sustainable development.

Summary of County Departments and SDGs falling under their mandate.

| S/NO | Department | GOAL |
|------|--|---------------|
| 1 | Agriculture, Livestock and Fisheries | Goal 1 and 2 |
| 2 | Health Services | Goals 3 |
| 3 | Water, Environment, Energy, Forestry and Natural | Goal 3, 6 and |
| | Resources. | 14 |

| 4 | Education, Culture, Youth Affairs and Social | Goals 4 and | | |
|---|--|----------------|--|--|

| | | 17 | | |
| 7 | Finance and Economic Planning | All | | |
| 8 | Public Service Management | Goals 1, 2, 11 | | |
| | | and 13 | | |
| 9 | Office of The Governor and Deputy Governor | All | | |

The following is County respond to Sustainable Development Goals (SDG's);

Goal 1: End poverty in all its forms everywhere

The County will identify people living in poverty at the grass-root level and to target resources and services to help them overcome deprivation and dehumanizing poverty. It will ensure that all men and women, particularly the poor and the vulnerable have equal rights to economic resources, as well as access to basic services, ownership, and control over land and other forms of property, inheritance, natural resources, appropriate new technology, and financial services including microfinance. The county endures to implement strategic intervention based on the need for different areas within the county. As a result, this will build the resilience of the poor and those in vulnerable situations, and reduce their exposure and vulnerability to climate-related extreme events and other economic, social and environmental shocks and disasters.

Goal 2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture

The county will continue to support agricultural production and local economic growth by strengthening extension service to farmers and by providing basic transport infrastructure and markets to promote good exchange in local food chains. Further through use of healthcare services and Early Childhood Centers (ECDs) to identify and tackle child malnutrition the county will ensure that everyone can enjoy a safe, nutritious diet, all year round. The county will carry out feeding for ECDE School going children to address issues of malnutrition

Goal 3: Ensure healthy lives and promote well-being for all at all ages

The county has a huge responsibility of ensuring the local communities have access to good quality health care and live a healthy life.

Goal 4: Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

The county is responsible for early childhood development (ECD) that form the basic foundation for education. As such, it will continue to identify and tackle the barriers to school attendance. It will also integrate technical and vocational training programmes into local economic development strategies, making sure training is valuable to labor market opportunities. The county will further reach out to vulnerable and marginalized individuals and communities to ensure they have accessed to quality education and training that meet their needs.

Goal 5: Achieve gender equality and empower all women and girls

The county will continue to advocate for gender equality and the empowerment of women through non-discriminatory service provision to citizens and fair employment practices and mainstreaming of gender equality across all areas of their work in order to tackle the multiple barriers to women's empowerment.

Goal 6: Ensure availability and sustainable management of water and sanitation for all

The county is committed to ensuring access to clean and safe water and sanitation through effective local governance, natural resource management, and local planning. Integrated water resources management will be enhanced through cooperation in planning and environmental policy between the County and National Government.

Goal 7: Ensure access to affordable, reliable, sustainable and modern energy for all

The county plans to identify gaps in access to affordable energy among vulnerable groups in the communities and address them thus contributing to energy efficiency directly by investing in energy efficient infrastructure, alternative and green energy sources.

Goal 8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

The county will generate growth and employment from the bottom up through local economic development strategies that harness the unique resources and local opportunities. The county also will improve business environment that attract investment and flourish existing businesses.

Goal 9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation

The county has continued to put more efforts in developing and maintaining infrastructure to serve local communities and link them up with their surrounding areas. This includes the promotion of small-scale industry and start-ups in their local economic development strategies, taking into account local resources, needs and markets based on the local comparative advantage.

Goal 10: Reduce inequality within and among countries

The county will build local capacities and tackle poverty and exclusion through political inclusion at local levels of government.

Goal 11: Make cities and human settlements inclusive, safe, resilient and sustainable.

The county is in the process of developing strategic urban plans to prevent growth of new slums, and work with slum-dwellers to improve conditions and provide basic services where slums already exist.

Goal 12: Ensure sustainable consumption and production patterns.

The county will support short supply chains, thereby reducing transport and carbon emissions, through land management, infrastructure, urban planning, education and training, and public markets to ensure supply goods and service is at par with demand. The County also has put strategies to ensure that production is all year round and producers are well educated on post-harvest losses.

Goal 13: Take urgent action to combat climate change and its impacts.

The capacity of the county governments to deal with climate related hazards and natural disasters need to be strengthened through integration of climate change adaptation and mitigation into local planning to reduce the emissions from our cities and increase their resilience to environmental shocks.

Goal 14: Conserve and sustainably use the oceans, seas and marine resources for sustainable development

Urban sanitation and solid waste management are essential to reducing pollution in water bodies. There is therefore need for collaboration between County Government and relevant National Government Ministries, Departments and Agencies to put in place these policies.

Goal 15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss.

The County Governments' role as service providers (especially of water, sanitation, and solid waste management), coupled with our ability to incentives behavioral change in our communities, puts us in a unique position to protect natural resources and habitats.

Goal 16: Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels.

County Governments lead the way in experimenting with new forms of participatory decision making, such as participatory budgeting and planning. The County Governments has expanded these efforts and become even more responsive to community needs while ensuring transparent and accountable processes and making sure no group is excluded. The Executive office of the

Governor leads the way in experimenting with new forms of participatory decision by holding public participation on all projects across the County through the support of Kenya Devolution Support Program (KDSP) and in partnership with Civil Society Organization in the County in Carrying out civil education on Governance and County planning cycle.

Goal 17: Strengthen the means of implementation and revitalize the global partnership for sustainable development.

There is need for local resource allocation to support SDGs implementation. The County Government of Kericho mainstreamed SDGs into its County Integrated Development Plan (2018-2022) to ensure budgetary allocation to SDGs is realized. It is at the local level that coherent policies can be developed to address the multiple challenges of poverty reduction and sustainable development.

The Sustainable Development Goals (SDG's) in Kericho County are being addressed within their respective sectors through different interventions as indicated in the development priorities and strategies.

CHAPTER THREE

County Development Priority Programmes and Projects

3.0 Introduction

This chapter presents details of projects and programmes derived from Kericho County Integrated Development Plan (2018-2022) and were identified in various forums including, Vision 2030; MTEF consultative forums; 3rd MTP Consultations; Public hearings; Governor's Manifesto; Jubilee manifesto and other development consultations at the devolved levels. The information is presented per department: the departments are: Finance and Economic Planning; Agriculture, Livestock and Fisheries; Education, culture, Youth Affairs and Social Services; Health Services; Water, Environment, Energy, Forestry and Natural Resources; Information, Communication and E-Government; Trade, Industrialization Cooperative Management, Tourism and Wildlife; Roads, Public Works and Transport (Infrastructure) and Land, Housing and Physical Planning.

For each of the Department, the department vision and mission are stated as well as the county's response to the sector vision and mission and the role of the stakeholders. In addition, the priority projects and programmes are presented as follows: the ongoing projects and programmes, multi year (flagship) and newly proposed projects. Finally, strategies for mainstreaming cross cutting issues in each sector are included.

3.1 OFFICE OF THE GOVERNOR & DEPUTY GOVERNOR

3.1.0 Introduction

The department comprises of Governor's and Deputy Governor's offices.

- **a) Vision:** "A leading sector in public policy formulation, coordination, supervision, resource management and legislation".
- **b) Mission:** "To provide overall leadership and direction in resource mobilization, management and accountability for quality service delivery".

3.1.1 Department Projects/Programmes

(i) On-going projects/programs

3.2 COUNTY PUBLIC SERVICE BOARD

Introduction

The Public Service Board draws its mandate from Section 59 of the County Governments Act No. 17 of 2012. Some of the functions of the Board include;

a) Vision

A competitive, effective and efficient public service for a working County

b) Mission

To recruit, develop, nurture and retain an efficient county public service that complies with the values and principles of good governance.

c) Mandate

The functions of the County Public Service Board shall be, on behalf of the county government, to—

- (a) Establish and abolish offices in the county public service;
- (b) Appoint persons to hold or act in offices of the county public service including in the Boards of cities and urban areas within the county and to confirm appointments;
- (c) Exercise disciplinary control over, and remove persons holding or acting in those offices as provided for under this Part;
- (d) Prepare regular reports for submission to the county assembly on the execution of the functions of the Board;
- (e) Promote in the county public service the values and principles referred to in Articles 10 and 232;
- (f) Evaluate and report to the county assembly on the extent to which the values and principles referred to in Articles 10 and 232 are complied with in the county public service;

- g) Facilitate the development of coherent, integrated human resource planning and budgeting for personnel emoluments in counties;
- (h) Advise the county government on human resource management and development;
- (i) Advise county government on implementation and monitoring of the national performance management system in counties;
- (j) Make recommendations to the Salaries and Remuneration Commission, on behalf of the county government, on the remuneration, pensions and gratuities for county public service employees.

3.3 FINANCE AND ECONOMIC PLANNING

3.3.0 Introduction

This department comprises Finance, Economic Planning, Budget, Audit, Revenue and Procurement Divisions. The department is charged with the responsibilities of proper Planning and management of all the financial resources of the county in order to achieve the goals of the CIDP 2018/2022 and the Vision 2030.

a) Vision:

"To be a world class institution in economic and financial management".

b) Mission:

"To create an enabling environment for accelerated and sustained economic growth through pursuit of prudent economic, fiscal, and monetary policies and coordination of government financial operations".

c) Mandate:

The County Treasury is responsible for managing county government finances. Supporting efficient and sustainable public

financial management is fundamental to the promotion of economic development, good governance, social progress and a rising standard of living for all county citizens. The Constitution mandates the county Treasury to ensure transparency, accountability and sound financial controls in the management of public finances. County Treasury is mandated to promote government's fiscal policy framework; to coordinate macroeconomic policy and intergovernmental financial relations; to manage the budget preparation process and to monitor the implementation of departmental budgets.

3.4 AGRICULTURE, LIVESTOCK AND FISHERIES

Introduction

The Department of Agriculture, Livestock and Fisheries comprises four directorates namely; Agriculture, Livestock Production, Veterinary Services and Fisheries. Under the Constitution of Kenya 2010, Schedule 4, the department is mandated to carry out the following functions; crop and animal husbandry, livestock sale yards, county slaughter facilities, plant and animal disease control and fisheries development. Sustainable Development Goals (SDG) number 1 and 2 obligates the department to promote food productivity so as to reduce poverty and eliminate hunger.

Under Vision 2030, the department is expected to raise farm incomes through accomplishment of innovative, commercially oriented and modern agriculture, livestock and fisheries sector. To achieve these the department is carrying out the following roles and responsibilities:-

(a) Agriculture

Formulation, implementation and review of county agricultural and food policy; Provision of agricultural extension services and promotion of appropriate technologies; Advice on regulation and standards on quality control of agricultural inputs, produce and products; Collaboration with research institutions in undertaking crop research and development; Management of Agricultural Mechanization Services (AMS) and Agricultural Training Centres (ATC); Crop pests and disease control and Management; Promotion of conservation of soil and water management for Agriculture.

(b) Livestock

Formulate, implement and coordinate county livestock policies and programmes; Collaborate and liaise with mandated research centres and set county research agenda; Provide livestock production extension services and promote livestock technology transfer; Collection, maintenance and management of livestock production information; Promote sustainable use of natural resources for livestock development; Regulation and quality control of inputs, produce and products in the livestock sector.

(c) Veterinary

Implementation of national veterinary policies and development of relevant county veterinary policies and laws; Livestock Disease investigation, vector and disease surveillance, diagnosis, reporting and notification; Local quality control, inspection and certification of animals, animal products, feedstuffs and veterinary inputs; Delivery of animal health, production, welfare and food safety advisory services; Implementation of animal reproductive services including Artificial Insemination; Veterinary technical responsibility for livestock sale yards, livestock markets, county abattoirs and associated infrastructure; Implementation of standards for value addition to animal products including meat, milk, eggs, hides, skins, wool and feathers; Participation in research agenda setting in the livestock industry; Collaboration with the Department of Fisheries and Kenya Wildlife Service in matters of fish and wildlife health respectively; collaboration with the Department responsible for health services in their respective counties in matters of zoonosis and the 'One Health approach'.

(d) Fisheries

Formulation and Implementation of county fisheries policy; Provision of Fisheries extension services and promoting aquaculture development; Provision of fish trade license and fish movement permits; Ensuring fish quality assurance and product development; and Managing of fisheries data bank

Vision and Mission

Vision

"A prosperous County where residents enjoy a high quality of life in a sustainable environment"

Mission

"To foster equitable and sustained socio-economic development through efficient and effective mobilization and utilization of available resources"

Goal

"Enhance livelihoods and ensure food and nutrition security through creation of an enabling environment and sustainable natural resource management"

Background information:

Agriculture and livestock production are the major activities in the county. Majority of the people in the county depend either directly or indirectly on agriculture for employment and income generation. The county's household income from the sector accounts for 70 per cent and provides employment to over 70 per cent of the Labour force.

The sub-sectors also provide raw materials such as crop produce and livestock-based products for both the on-farm cottage and formal industries within and outside the county.

Research and development plays a critical role in terms of providing farmers with modern farming technologies that include use of high yield varieties of tea, coffee, maize seeds, potatoes, and control of livestock diseases among others. This will help increase yields; reduce food poverty and hence improve overall quality of life in the county. Continuous research and development will enhance agricultural and livestock value addition critical for competitiveness of the county's products both at national and international markets.

Since the inauguration of the County Government emphasis, in the sector has been on revamping the livestock industry owing to its socio-economic importance to the people of Kericho. At the same time crops and fisheries programmes taken-over from the National Government were continued and elevated to a pedestal necessary for the county's industrialization take-off.

In the previous year 2018/2019 the department implemented ten (12) programmes namely; Livestock Breed Improvement through provision of artificial insemination services, Livestock improvement, Feeds and Product processing through promotion of on farm feed formulation, pasture/fodder conservation, value addition of livestock-based products, Livestock Pests and Disease Control Programme through rehabilitation of dips, supply of acaricides and vaccination against notifiable diseases; support to dairy sector development through provision of milk cooling facilities supplied by the National Government; and agricultural

information dissemination services. The other programmes included: Food security enhancement project, Industrial crops development project, Horticulture Development Support Programme, Smallholder Irrigation Development Project, Agricultural Mechanization and Technology Development project, and Soin Agricultural Training Centre Modernization Project.

Other projects that are co funded by donors which were under implementation and will be ongoing are; Kenya Climate Smart Agriculture Project (KSCAP) and Agriculture Sector Development Support Programme (ASDSP).

The department intends to consolidate the gains realized over the past years by implementing 16 programmes in 2020/2021 financial year as depicted in the reporting matrix for annual development plan in-order to contribute meaningfully to the county's vision.

3.4.0 Department Projects/Programms

3.4.1 On-going projects/program

| N o | Project Name | Project Locati on | Object ives | Descrip tion of Activiti es | St ar t da te | Description of Activities done and %age | End date | Amount paid(Ks hs) | Remarks including pending works |
|--------|---|-------------------------|---|--|---------------------------|--|--------------|--------------------|---|
| 1 | Livesto ck improv ement, feeds and produc t process ing | County wide | To increa se livesto ck produ ction and produ ctivity | Procure ment of assorte d pasture /fodder seeds. | Ju ly 20 18 | Procuremen t of assorted pasture/fod der seeds. 100% | June 2019 | 2,616,0 00 | Procurem ent complete d and delivery made, distributi on to farmers ongoing |
| | | | | Procure ment of hand operate d grass cutter | Ju ly 20 18 | Procuremen t of hand operated grass cutter 100% | June 2019 | 990,000 | Delivery done |
| | | | | Procure ment of | Ju ly | Procuremen t of day old | June 2019 | 4,500,0 00 | Procurem ent |

| | | day old chicks (improv ed Kienyeji | 20 18 | chicks (improved Kienyeji) 100% | | | process complete, awaiting delivery from KALRO |
|--|--|---|----------------------|--|--------------|---|--|
| | | Procure ment of Medium honey press machin e | Ju ly 20 18 | Nil | June 2019 | 0 | Procurem ent wasn't done but has been rebudgeted in the next Financial Year |
| | | Procure ment of large scale centrifu ge machin e | Ju ly 20 18 | Nil | June 2019 | 0 | Procurem ent wasn't done but has been re-budgeted in the next Financial Year |
| | | Chick mash 70kg bag | Ju ly 20 18 | Nil | June 2019 | 0 | Procurem ent wasn't done but has been re-budgeted in the next Financial Year |
| | | Galla goats/d orper sheep | Ju ly 20 18 | Nil | June 2019 | 0 | Procurem ent wasn't done but has been re-budgeted in the next |

| | | | | | | | | | Financial Year |
|---|---|-----------------|--|---|----------------------|---|--------------|---|--|
| | | | | Procure ment of DAP fertilizer | Ju ly 20 18 | Nil | June 2019 | 0 | Procurem ent wasn't done but has been re-budgeted in the next Financial Year |
| 2 | Fish farmin g and utilizati on project | Soin ATC | To facilita te fingerli ng produ ction | Constru ction of fish ponds | Ju ly 20 18 | Constructio n of 3 liner ponds 0% | June 2019 | 0 | Procurem ent wasn't done but has been rebudgeted in the next Financial Year |
| 3 | Promot ion of Food and Nutriti | County -wide | To increa se incom es and reduce food insecu rity | Farmer s training s Barazas , field days | Ju ly 20 18 | 1,500 Farmers trained – 30% 120 Barazas done -40% 4 field days done – 20% | June 2019 | 0 | Agricultu ral extension funds not accessed because it was placed under developm ent budget |
| | on Securit y | | among rural house holds in Kerich | Food crop demons trations | Ju ly 20 18 | 90 demo plots done – 30% | June 2019 | 0 | Agricultu ral extension funds not accessed because it was placed under developm |

| 2 . | Horticul ture product ion ,process ing and marketi ng project | Bureti Sub county | To increase productivity and employment opportunities in the production, processing and marketing of horticulture produce | Constru ction of Roret pineapp le waste water treatme nt | July 2017 | Excav ation and const ructio n (40%) | June 2021 | 4 milli on | Inco mpl ete |

3.4.3 New projects/programmes

| s/no | Project name | Project location | Objectives | Description of activities |
|------|--------------------------|---------------------|---|--|
| 1 | Dairy development | County wide | To increase dairy production and productivity | Procurement of; 2830kg of assorted pasture 15,000 fodder tree seedlings 660 bags of DAP fertilizer |
| 2 | Poultry development | County wide | To increase poultry production and productivity | Procurement of; 60,000 day old chicks (improved kienyeji) 1200 bags of Chick mash |
| 3 | Apiculture (Bee keeping) | County wide | To increase honey | Procurement of; 24 sets of assorted bee harvesting equipment |

| | | | production and productivity | 400 pieces of langstroth hives |
|---|---|---|---|---|
| 4 | Sheep and Goats development | Soin/ Sigowet, Kipkelion East, Kipkelion West, Ainamoi | To increase sheep and goats production and productivity | Procurement of 94 galla goats and dorper sheep |
| 5 | Livestock extension | Sub county headquarters | To facilitate effective extension service delivery | Procurement of 6 motorbikes |
| 6 | Fish farming and utilization project | Kipkelion Coffee Farm | To develop a fish farming training centre for farmers | Construction and stocking of two earthen fish ponds |
| | | Soin ATC | Completion of hatchery centre | Construction of three liner fish ponds |
| | | County wide | To increase fish production and productivity | Procurement of monosex fingerlings |
| | | County wide | To increase fish production and productivity | Procurement of fish feeds |
| | | County wide | To facilitate effective fish harvesting | Procurement of 20m fully mounted fish harvesting equipment (seine net) |
| 7 | Livestock Breeding Programme | Countywide | To improve livestock productivity | Purchase Semen doses, Purchase Liquid Nitrogen, Distribute to Cooperative societies, To offer AI services to farmers, to train farmers on improving genetics |
| 8 | Livestock Pest and Disease Control Programme | Countywide | To promote livestock health and increase productivity | To purchase vaccines and carry out vaccination campaigns against ECF, Rabies, Blackquarter, Anthrax, Lumpy Skin Disease, Foot and Mouth Disease, CCPP, PPR, and others Rehabilitation of cattle dips Procurement of assorted acaricides. Distribution of acaricides to Sub-Counties and to the Cattle Dips. Rehabilitation of slaughter facilities Relocation and construction of Slaughter facilities Construction of Poultry Slaughterhouse |

| 9 | Soin Agricultural Training Centre Modernization Project | County wide | To facilitate farmer training | Installation of 2 metallic gates with concrete support Procurement of water tanks Procurement of project computers and printers Procurement of training equipments |
|----|---|---|--|--|
| 10 | Agricultural Extension Services | County wide | To enhance service delivery | Capacity building of farmers and staff |
| 11 | Promotion of Food and Nutrition Security | Countywide | To interrelate agricultural production with nutrition To improve home management in relation to food | Farm demonstrations and trainings Farm demonstrations and trainings |
| 12 | Horticulture production ,processing and marketing project | Ainamoi | Promote agro processing | Value addition of horticultural farm produce |
| 13 | Enhancement of Industrial crops | Kipkelion East & West Sugarcane growing areas Tea growing areas | Crop diversification Expansion of area under high yielding clones Improve sugarcane productivity through improve varieties | To revive pyrethrum by availing planting materials to the farmers Replace old moribund tea varieties with high yielding clones Support farmers with high yielding planting materials |
| 14 | Agricultural sector development support program (ASDSP) | County wide | Capacity building, market development and social inclusion and climate change resilience | Dairy, poultry and tomato value chain |
| 15 | Kenya climate smart agriculture program (KCSAP) | Soin/Sigowet, Ainamoi, Kipkelion West | Increase agricultural productivity and build resilience to climate change risk in the targeted smallholder farming | Bananas, finger millet , poultry and dairy Value chain |

3.5 HEALTH SERVICES

Introduction

This chapter presents details of projects and programmes derived from Kericho County Integrated Development Plan (2018-2022) and were identified in various forums including, Vision 2030; MTEF consultative forums; 3rd MTP Consultations; Public hearings; Governor's Manifesto; Jubilee manifesto and other development consultations at the devolved levels.

A well developed and healthy human resource is an important aspect in the development of the county. The sector provides both preventive and curative services. It ensures a healthy population who can actively participate in development activities in the county. The big challenge, however, is shortage of qualified health personnel; inadequate medical facilities and equipment; high poverty rates; HIV and AIDs prevalence; and reduced budgetary allocation for the sector. The county will therefore endeavour to provide health care facilities and to create awareness for improved health seeking behaviour. Over the plan period, the county will strive to improve provision of health services to its residents.

Vision

"A healthy County population for economic development and quality life"

Mission

"To provide the highest standards of health services by developing a health system that is technologically driven, equitable, accessible and community oriented"

Mandate

'To provide health services, create an enabling environment, regulate, set standards and policyfor health service delivery in Kericho County

Departmental Projects/Programs

3.6 EDUCATION, CULTURE AND SOCIAL SERVICES

Introduction

There has been number of changes in realignment of the departments in Kericho County. In 2014, department included the following service sectors, education, youth affairs, culture, sports and social services. With alignment in 2017, the youth affairs section was excised and placed in department of ICT and egovernment. Currently the department constitutes the following service sectors; education (ECDE), vocational education and training, social services and culture.

c) Vision:

"A globally competitive education, training, sports, cultural and social services for sustainable socio economic development.

d) Mission:

"To provide, and coordinate quality education, training, and integration of sustainable socio-economic development through promotion quality culutral, social and sporting services for all".

e) Mandate

The department of Education, Culture & Social Services has been mandated to develop education, empower the youth through vocational training, promote and preserve cultural heritage improve the provision of social services whereas ensuring gender is mainstreamed in all its programmes.

(a) Education

- (i) Implementation of the Pre-primary education policy;
- (ii) Quality assurance and supervision of pre-primary institutions;

- (iii)Pre-primary curriculum implementation;
- (iv) Establishment and management of child care centers.
- (v) Early childhood education, care and development;
- (vi)Provide information on education and education trends to the County Executive Committee;
- (vii) Undertake research and development, and
- (viii) Coordinating and presiding over education activities in the County.
- (ix)Sourcing, disbursement of bursary and scholarship funds to needy children.
- (x) Monitoring and implementation of infrastructural projects.

(b) Culture

- i) Domestication/Implementation of National policy on culture and heritage at County level;
- ii) Development, implementation and review of County policy on culture and heritage;
- iii) Establishment of operationalization of community cultural centers as focal point of Promotion of cultural dialogue and expression.
- iv) Documentation and preservation of historical/cultural sites, indigenous knowledge and other elements of intangible cultural heritage;
- v) Development of creative cultural industries and commercialization of the arts(fine, creative and performing arts)
- vi) Coordination of cultural exchange programs at the county, intercounty, national and international levels;
- vii)Empowering cultural practitioners through capacity building workshops ,exhibitions, symposia, seminars, concerts, art and traditional food competitions and festivals;
- viii) Educating the public on cultural rights and intellectual property rights in the county;
- ix) Organize county music and cultural festivals to promote unity, cohesion and the spirit of patriotism;
- x) Establishment and operationalization of county museums.

(c) Social services

- (i) Implementation of policies and programs on gender, social protection and vulnerable groups-disable, widows, elderly
- (ii) Gender Mainstreaming into County development programs;

- (iii) Coordinating the implementation of national standards and guidelines on variable groups;
- (iv) Sensitization on issues of Women Enterprise, Uwezo Funds in the county and other relevant programes;
- (v) Social Welfare including all vulnerable groups such as widows and PWDs.
- (vi) Community Development programs- registration of community groups, grant in aid to social groups.

Vocational Training and Home Craft

3.8 PUBLIC WORKS, ROADS AND TRANSPORT

Introduction

The Department has three sections: Public Works, Roads and Transport whose functions have been devolved from the Central government mainly to promote welfare services amongst the people. The Department is guided by among other policy instruments, departmental development plan, county medium plan, Constitution of Kenya 2010, Governor's manifesto and county integrated development plan (CIDP 2014-2018) that are developed by Kericho County Government as a blue print for development of the county. The department after the transition, inherited most of the defunct local authorities functions among others. Half of the workers have also been from the former authorities, more workers have however been recruited and more are required so as achieve the set objectives. The department has also acquired more heavy earth moving machines like tippers and excavators though more are needed since most of the equipment from the former authorities are old, may require repairs that are expensive and maybe inefficient.

Vision

"A World class provider of cost-effective physical infrastructure facilities and services".

Mission

"To provide efficient, affordable and reliable infrastructure for sustainable economic growth and development through construction, modernization, rehabilitation and effective management of all infrastructure facilities"

Mandate

The key mandate of the department is "carryout construction and maintenance of the County physical infrastructure to create connectivity through road networks and drainage systems, supervision of public buildings, provision and development of efficient public transport and transport issues, ensuring clean secure built environment through proper street lighting and provision of proper storm water management systems.

County Response to Sector Vision and Mission

Road projects and drainage structures are a link to resource centers, markets and agricultural areas. County roads act as feeder roads hence they are connectors to the main highways. They link various sectors and allow access to inputs for production and outputs for consumption they also provide direct employment opportunities for the people during construction and maintenance.

Department Projects/Programmes

(i) On- going projects/pogams

Maintenance Projects funded through Roads Maintenance Levy Fund (RMLF)

3.9 WATER, ENVIRONMENT, ENERGY, FORESTRY & NATURAL RESOURCES

INTRODUCTION

The department of water, environment, energy, forestry and natural resources is one of departments in the county which was established with the mandate of ensuring provision of safe and quality water, conserved and protected environment, promotion of renewable energy and sustainable utilization of natural resources.

Devolution under Kenya's new 2010 Constitution has wide-ranging implications for the water, environment, energy and natural resource management sectors. The Constitution recognizes that access to safe and sufficient water is a basic human right. It also assigns responsibility for water supply and sanitation provision to 47 newly established counties.

The constitution also enshrines a series of environmental rights that summed up the right of citizens for a clean environment .In addition ,the constitution provides for devolution of certain Environmental mandates to the county government which includes environmental conservation and protection ,refuse removal and disposals sites, noise and air pollution control ,forestry and soil and water conservation..

The department is currently working under two divisions namely; the division of water and sanitation, and the division of Environment, Energy, Forestry and Natural Resources

3.9.1 Vision, Mission and Strategic Objectives

(a) Vision

A prosperous County where residents enjoy a high quality of life in a sustainable environment

(b) Mission

To foster equitable and sustained socio-economic development through efficient and effective mobilization and utilization of variable resources

(c) Strategic Objectives

- ▶ To Increase access to safe water
- To increase access to basic sanitation
- ▶ To Increase forest and tree cover
- ▶ To Protect and conserve the environment
- ▶ To Enhance solid waste management
- ▶ To Enhance urban Aesthetics
- ▶ Enhance the use of Energy saving devices in the county;
- Increase uptake and use of alternative energy sources in the county

(d) Strategies

- Develop new water supply projects
- ▶ Rehabilitation and augmentation of existing water supplies
- Protection of water sources
- ▶ Drilling and equipping/Rehabilitation of boreholes
- Develop new water pans and dams
- ▶ Desilting/Rehabilitation/Augmentation of Pans and dams
- ▶ Provision and Installation of water harvesting facilities in public institutions/schools
- Develop new sanitation facilities
- ▶ Rehabilitation and augmentation of existing sanitation facilities
- Develop new sanitation facilities

- ▶ Develop appropriate policy and legal frame work for Solid Waste Management to reflect current and future needs
- ▶ Develop SWM infrastructure
- ▶ Management of recreational parks /arboreta.
- ▶ Town beatification programme
- ▶ Formulate noise and air pollution policy and legislation control
- Undertake noise and air pollution assessments
- Build capacity on noise and air pollution control
- ▶ Provision of forestry Extension Services
- ▶ Tree seedlings production
- ▶ Promotion of Agro forestry and commercial tree growing
- Tree planting programme
- ▶ Rehabilitation of Degraded sites
- Promotion of tree based enterprises
- ▶ Training of Solar Energy Artisans
- Biogas Energy plants for individual households
- Training of biogas Artisans
- Independent Hydro power Generation plants
- Establishment of wind power generating systems
- ▶ Improved cook stoves for households and Public schools
- Training of cook stove Artisans
- Training on Efficient Charcoal Burning Technology

3.9.2 Key Issues and Challenges

a) Inadequate Clean Water

Main Challenges;

- Old infrastructure
- Inadequate management and maintenance of existing infrastructure
- In adequate investment into the sector
- ▶ Insufficient sustainability
- Water pollution from farms & urban runoff

b) Insufficient/inadequate waterborne sanitation facilities

Main Challenges

- ▶ Inadequate investment into the sector
- ▶ Frequent sewer leakages due to increased discharge into the existing sewer systems
- ▶ Mush rooming of densely populated informal settlement in towns and shopping centres

- Weak Planning and poor plan Implementation
- ▶ Uncoordinated planning and implementation between the county government and other stakeholders.

c) Other Challenges Facing the Water Sector

- ▶ Political interference-The political nature of water as resource attracts political influence which overrides the need/necessity
- ▶ Conflict between 'water as a commercial service' versus 'Water as a free public good'-There is a perception that water is a public good and should be provided for free
- ▶ Inadequate human resource capacity
- Overlapping of mandates-LVSWSB, NWCPC and County Governments
- ▶ Lack of equipment
- ▶ Inadequate transport

d) Environmental degradation

- Catchment destruction-Wetland, Hill tops and riparian areas
- Catchment encroachment especially the wetlands
- Reduced forest cover
- Weak legislation and enforcement capacity on environmental policies
- Climate change

e) Inadequate Solid waste management

- inadequate solid waste disposal facilities and equipment
- Inadequate human resource capacity
- ▶ Inadequate SWM policies and legislation within the county
- Weak enforcement of Solid waste management legislation
- ▶ Continued use of landfill SWM system as opposed to modern SWM technology

f) Unregulated Noise and air pollution

- Lack of air and noise pollution measuring equipment
- Lack of human resource capacity
- Lack of enforcement on noise and air pollution regulation

3.9.3 Department Programs and Projects

ON-GOING PROJECTS/PROGRAMMES

| S | Project | Project | Objectiv | Description | Start | Descrip | End | Amou | Remarks |
|-------------|--|--------------------------------|--|---|---------------------------|---|----------------------|-----------------------|--|
| / N o | Name | Locatio n | es | of Activities | Date | tion of activiti es Done and %age | Date | nt Paid (Kshs.) | including pending works |
| 1 | Ainamoi water project (KEWASC O) | Ainamoi | Enhance water supply services | Construction of 2no. 50m ³ Masonry storage break Pressure/bal ancing tanks Extension of distribution pipeline | Octo ber 2019 | 0% | Marc h 2020 | 0 | Tendering process is on going |
| 2 | Fortenan Health Centre Water Project | Chilchil a | Enhance water supply services | Construction of 3 No. 25 m³ ground level Masonry tanks, Composite filtration unit and a gravity pipeline. | 11/6 /201 9 | 0% | 10/12 /2019 | 0 | The contractor has just mobilized |
| 3 | Supply and delivery of plastic tanks | County wide | Enhance water supply services | Supply and delivery of plastic tanks | Sept embe r 2019 | 0% | Dece mber 2019 | 0 | |
| 4 | Kendabei borehole water project | Kabiang a / Chema mul | Improve access to safe water | Drilling and Equipping of Borehole; Construction and Electrificatio n of Pump House; Rising Main; Elevated Storage Tank ;Distribution pipeline; and Fencing | 2016 /201 7 | Drilling of borehol e done. Distribu tion Pipeline complet ed but not yet tested. | 2016/ 2017 | 2,039, 130.00 | The drilling was done but the borehole failed as it was dry. Equipping of borehole; Construction and Electrificatio n of Power House; and Construction ofRising Main will not be implemented . As a result of the dry borehole a surface source was identified |

| S / N o | Project Name | Project Locatio n | Objectiv es | Description of Activities | Start Date | Descrip tion of activiti es Done and %age | End Date | Amou nt Paid (Kshs.) | Remarks including pending works |
|------------------|---|--------------------------------|--|--|---------------------|---|-------------------|-------------------------------|--|
| | | | | | | | | | and the project is ongoing. |
| 5 | Koiwalelac h water supply | Kabiang a / Chema mul | Enhance water supply services | Construction of, pump house, pipework, connection mains power supply | 30/5 /201 8 | Pump house constru cted; to be painted. Pipewor k repairs done but not to completi on. | 30/11 /2018 | 364,70 0.00 | terminating the contract and retendering the remaining works owing to the slow implementat ion by the contractor and high cost of electricity connectivity |
| 6 | Kapcheluc h borehole water Project | Kabiang a/ Chema mul | Enhance basic sanitatio n services | Ablution block construction and relocation | Octo ber 2019 | 0% | Marc h 2020 | 0 | Tendering process is on going |
| 7 | Kapcheluc h borehole water Project | Kabiang a/ Chema mul | Enhance water supply services | Equipping of Borehole; Construction and electrification of Control Panel House, Water storage tank on a painted steel tower, rising main and distribution pipeline, and water Kiosks | 18/5 /201 9 | Pump installe d, Power house constru cted, and steel tower is under constru ction 65% complet e | 17/11 /2019 | 0 | |
| 8 | Lelu Water Project | Kamasia n | Enhance water supply services | Spring Protection, Storage Tank 50m3, Gravity Main and Distribution | 18/6 /201 9 | 0% | 17/12 /2019 | 0 | Contractor yet to move to site |
| 9 | Kipkok Water Project | Kaplalar tet | Enhance water | Construction of Intake Works, a | 16/0 2/20 17 | 150m³ Masonr y | 15/08 /2017 | 1,081, 034.50 | Implementat ion of the project |

| S / N o | Project Name | Project Locatio n | Objectiv es | Description of Activities | Start Date | Descrip tion of activiti es Done and %age | End Date | Amou nt Paid (Kshs.) | Remarks including pending works |
|------------------|--|-------------------------|--|---|-------------------|--|----------------------|-------------------------------|--|
| | | | supply services | Gravity Main, a 100m³ Masonry Storage Tank and a Distribution Pipeline | | Storage Tank constru cted. Intake(S pring) under constru ction 40% complet e | | | delayed due to conflict between users at the source. The source has since been Changed and the project is now under construction |
| 1 0 | Cherire water project | Kaplarte t | Enhance water supply services | Development of three springs, construction of 25m³ sump, construction of 50m³ ground masonry water storage tank and construction of rising mains and distribution pipeline. | 2/5/ 2017 | 50M³ ground level masonr y tank constru cted. 30% complet e | 10/2/ 2018 | 1,582, 560.00 | The remaining works will be retendered in 2019/20 FY owing to the slow implementat ion by the contractor |
| 1 1 | Simbamoi Water Project | Kaplelar tet | Enhance water supply services | Construction of 50m ³ Simbamoi Village Water Tank | 30/5 /201 8 | 50cu.m ground level masonr y tank constru cted. 80% complet e | Nove mber 2018 | 1,059, 150.00 | Slow progress of works |
| 1 2 | Chepkoini k/Kirukto Water project | Kapsoit | Enhance water supply services | Spring protection; Construction of 50m³ masonry sumpand distribution pipeline; Rehabilitatio n of pump house; and supply and | 7/6/ 2019 | Excavati on for tank floor foundati on commen ced. 1% complet e | 8/12/ 2019 | 0 | |

| s / | Project Name | Project Locatio | Objectiv es | Description of | Start Date | Descrip tion of | End Date | Amou nt | Remarks including |

3.10 PUBLIC SERVICE MANAGEMENT

Introduction

It is a service department mandated to guide the county human capital in human resource policies provisions and guidelines both at the county headquarters and the devolved units down to the village level.

Vision

To be a model department in the formulation of public policy and service delivery

Mission

Provision of policy direction for public participation and quality public service delivery

Mandate

The mandate of the department is to provide Human Resource policies and guidelines of the County Civil Service and Co-ordinate the Administrative Units at the County, Sub-County, and Ward and Village level.

3.1.1 Department Projects/Programmes

3.11 TRADE, INDUSTRIALIZATION, COOPERATIVE MANAGEME, TOURISM AND WILDLIFE

Introduction

This chapter highlights the department Vision, Mission, Mandate, ongoing projects/programs and new projects/programs.

a) Vision:

"To be a leading agent in the promotion of value addition, fair trading practices and county competitiveness in a conducive environment".

b) Mission:

"To Promote a Vibrant Business Enterprise Growth through an Enabling Policy and Legal Framework for Sustainable Socio-Economic Development".

c) Mandate:

- 1. To develop and manage trade and industrialization
- 2. To promote development of co-operative societies
- 3. Promote and manage tourism within the county

Department Projects/Programmes

- 1. Trade Development and Promotion
- 2. Co-operative Development and Promotion
- 3. Tourism development and Promotion

3.12 INFORMATION, COMMUNICATION, E-GOVERNMENT AND SPORTS

INTRODUCTION

The Department of Information, Communication and E-Government is set to position itself so as to grow a knowledge-based economy in line with Medium Term Plans, County Integrated Development Plan (2013-2017), Kenya's Vision 2030 and Sustainable Development Goals (SDGs). The department is a cross cutting service provider which is expected to contribute towards the implementation of selected strategies to enhance service delivery in the County.

- a) **Vision:** "To maximize Productivity and Efficiency in Service delivery by Utilizing and Exploiting ICTs platforms so as to make Kericho County the choice of everyone".
- **b) Mission** "To develop, deploy and support innovative, quality and sustainable ICTs and E-Government solutions and services that meet and exceeds the changing needs of governance and management of the CGK".
- c) Mandate
 - Establishing robust and reliable communication Platforms including but not limited to: Weekly County Newspaper; Monthly and Quarterly County Magazines; Journals; Annual Information Expo and County Radio
 - Facilitate the provision all ICT infrastructures required in Kericho County
 - Roll out of the necessary infrastructure for the IFMIS utilizations.

Resource mobilization is key and extra funding should be sought. Due diligence has been followed to arrive at the final report.

| 11 | Establishment of Youth Empowerment Park at Londiani Centre | Londiani | To improve on the information dissemination | Construction of Youth empowerment park with internet enabled. |
| 18 | Kericho Green Stadium | Kericho Stadium | To build and nature talents | Construction of Sports enhancement facilities inside the Green Stadium e.g Swimming pool, Indoor games centre etc. |

CHAPTER FOUR

Implementation, Monitoring and Evaluation

4.0 Introduction

This chapter presents the monitoring and evaluation framework that will be used to track progress on implementation of projects and programmes. The matrix enumerates projects and programmes, costing, implementing agencies as well as monitoring tools and indicators based on projects and programmes identified in chapter three.

4.1 Institutional Framework for Monitoring and Evaluation

One of the mandates for Department of Finance and Economic Planning in the county Government is to develop and implement a County Monitoring and Evaluation System, whose main aim is to improve the effectiveness and quality of implementation of various development policies, strategies and programmes in the county. Integrating monitoring and Evaluation to the planning process is therefore a critical aspect of governance. Monitoring indicators will assist the implementing agencies assess the progress made at the end of the plan Period.

Monitoring and Evaluation is in the process of being revamped by ensuring that each department appoint an officer to coordinate functions of monitoring and Evaluation within the department. Such an officer will be the link person to the department of Finance and Economic Planning where overall M&E activities are coordinated and consolidated. In addition to the above, the county is at the initial stages of implementing an automated Electronic County Intergrated Monitoring and Evaluation System (E-CIMES), this will help in updating the status of each project implemented and its performance in terms of timelines and resources
